Introduction

Stu Pickles has built a fantastic playset, complete with a castle, in the backyard! The playset looks like so much fun, that the Reptar Pizza chain wants Stu to build more playsets just for their restaurants.

Needing a few parts to complete the playground, Stu has gone to the hardware store leaving Grandpa in charge of the babies. Just like any other day, Grandpa has fallen asleep in his favourite chair.

Angelica, having seen the amazing world in the backyard, has decided to appoint herself queen of this magical land. As queen she declares the babies to be her loyal subjects.

Much to her dismay, the other babies want no part of this game, so to get back at them, she has taken all of their favorite belongings and hidden them in her New Kingdom. It's up to the babies to go in, rescue their toys and dethrone Queen Angelica!
